VOCATIONAL TRAINING CENTRE FOR MENTALLY RETARDED CHILDREN

Mentally handicapped students are the most victimized and helpless in the society. Even if they are neglected by kith and kin. They could not be sustained in the mainstream only by imparting them daily living skill or functional academy through special schools. Rather after their school education there is a need to observe their mental ability and physical potentiality to engage them with training and care for their vocational rehabilitation. If they would be financially self supported they could be able to lead a decent life in the society. SEVA INTEGRATED REHABILITATION CENTRE FOR ADDICTS

We believe that Nayagarh is more back ward than KBK region as the KBK region has railway, irrigation industries and other indicators of development which the Nayagarh district does not have. Rolling Bidi is a major economic activity in some clusters of Nayagarh District where a family consisting of 4 to 5 members are rolling Bidi and earning 20 to 30 Rupees a day for the purpose of their livelihood. Absence of Food materials force the labour class people for consumption of non hygienic local made liquor to fill up their belly. The Development is far away from them. Gradually they become drug addict and creates hindrances in smooth functioning of their families. Keeping in mind the dangers of drug addiction and the detrimental effect of drug and alcohol as well as other contraband articles upon the social, economic and personal sphere of individual being **Society For Environmental Development and Voluntary Action (SEVA)** one of its premier project De-addiction Cum Rehabilitation Centre in the year 1998-1999 which is now functioning in the name of Integrated Rehabilitation Centre for Addicts (IRCA)
