School for the children with Disabilities

Special schools for children with disability are different from regular schools in that they cater to students with education challenges. Special School is designed, staffed, and have the resources to provide the right support for children with unique needs. This school aim to level the playing field. We offer students targeted support to allow them to meet age-appropriate educational goals.

The Special school of our Organization customized programming to meet each student's unique combination of needs. This includes not just learning, but also social and emotional needs.

We run the facility of special education for children with Cerebral Palsy, Mentally Retarded, Hearing Impaired, Multiple Disabilities.

During the year 2019-2020, there are 28 students of different catagory in our Special School.

Category	No. of students

Aids & Appliance Distribution Camp

Many people with disabilities depend on assistive devices to enable them to carry out daily activities and participate actively and productively in community life. Access to assistive devices is essential for many people with disabilities and is an important part of any development strategy. Without assistive devices, people with disabilities may never be educated or able to work, so the cycle of poverty continues. So Bharatpur Conija Handicap School organized Aids & Appliance distribution camp every year. Professionals were assess the persons with Disabilities and recommend the Aids & Appliance as per their needs. Organization distribute the Aids & Appliance without any cost. This year we distribute 01 tricycle and 04 hearing aids.

Rural Health Activities

For the promotion of rural public health, our organization conducts rural Health Camps and medical checkups free of cost to promote health of the ordinary people without which in most far-flung areas, the awareness of health will be lacking. By this program, we promote the health of ordinary and poor people in the remote areas. We provide free medicines to the participants as most of them cannot afford payment for the cost of medicines. During the year 508 no of people received treatment through our organization.

Vocational Training

Under the Utkarsh Bangla Scheme of the West Bengal Government, we conduct vocation training for income generation to school drop outs by providing training free of cost. Under this scheme, beneficiaries are trained in Health, Tailoring, Land Survey, Computer education and beauticians, courses etc. On completion of the courses, beneficiaries will be given certificates. The State Vocational Education Department will be the nodal agency in charge of implementing the scheme. The syllabus for courses under this scheme has been made in line with the National Vocational Education Qualification Framework.

The Students Of Bharatpur Conija Handicap School Specially Mental Retardation does the activities like Paper Packet Making for Grocer's use and for the Jhal Masala , the Vendor's uses on daily basis. They are also giving training for Packing Things and Cleaning like City Gold Ornaments for last three years. All The staffs sensatize them how to co-operate each other in a small drama with soft music for their entertainment.

Among those Mentally Retarded children one or two started earning for their family. In our school 10-15 swing machines are there for their training In Tailoring.

Promotion of Child Education & Awareness Camp

In the rural areas, due to lack of awareness on the value of education, the parents do not send their wards to schools for education. Instead, many parents engage their wards in child labor to earn money for the family. This system of child labor is demeaning and violation of the fundamental rights of the children as they have a right for education and upward movement in life. Without education there is no development of an individual by developing his or her inner potentialities to taken up their due role in the task of national building. Without education a person's overall developmental process is stalled and he or she becomes victims of exploitation and injustice. So our awareness program to the parents is to motivate the parents to send their wards for education and development of their personalities. Also we organized awareness camp regarding various Disability every year. this year we organized 03 Awareness camp in remote village. There were 120 no of people participated those programme.

Hygiene and Sanitation Drive

Our society organizes cleanliness drive to the rural population with particular reference to people below poverty line to make them aware of the adverse effects lack of hygiene and cleanliness in their neighborhood, which will affect their health, economy and environment. So, we infuse in them ideas on the need of keeping clean their area including avoiding of open defecation. This way we promote overall health, promotion of knowledge on the issue, which are an ingredient of social development and upward movement of the society.

Environmental Protection

Our society takes steps to instill in the minds of the rural community on the need of increase of greenery by planting more trees in their areas including fruit trees for the absorption of greenhouse gases, increase in the production of oxygen and protection of bio-diversity. We also make them aware of the need of having agro-forestry on their farmland to increase the green cover benefiting the locality. We disseminate the information on the need of protecting our habitat as our lives are based on its foundation. We insist on the need of more plantation on vacant public land, which will prevent climate change and increase bio-diversity all of which will lead to protection of our precious habitat on which our life depends for its vitality.
