LEGAL GUARDIANSHIP

We are member of Local Level Committee of Mehsana District. In the committee member are Hon. District Collector sir, District Social Defence Officer, NGO and Divyangjan. We also apply and appointed 46 Guardian under The National Trust Legal Guardianship. A guardian is a person who is appointed to look after another person or his property. He or she assumes the care and protection of the person for whom he/she is appointed the guardian. The guardian takes all legal decisions on behalf of the person and the property of the ward. The occasion for taking care of another person may be his minority that is, a person who has not completed 18 years of age. It can also refer to guardianship of a person who because of physical and mental deficiencies is unable to take care of himself or his property. From early times, the condition of minority has been the ground for appointment of guardians in all societies. This is due to the fact that a minor

person is considered unfit to take decisions for himself, which can be binding on him as regards others. Therefore, a minor person is treated in law as incompetent to enter into contract with a person who is an adult. In all matters therefore, a minor has also been considered unfit to represent himself except through his guardian. A guardian takes decision on behalf of the minor for protecting the interests of the minor and his property.
