

St Thomas Mission Society ®, Mandya

Asha Sadan Special School (MR) 2020-21

Since 1996 Mandya missionaries have been taking care of the mentally challenged children. The statistics was taken and we found that there are plenty of such children. To look after and train the 173 children of Mandya town and surroundings a day school called Asha Sadan was formally begun in 2002 in the plot of land bought for that purpose. Fr Viju Muringassery and MSMI sisters take keen interest in the overall growth of this school. It has grown. In the coming academic year more children will be admitted. As the name suggests this centre has become a house of hope for the parents and children. Tremendous changes can be seen in the children due to the commitment and dedication of the teachers and Trainers. Parents are very grateful to us that they are able to accept their children and love them. Parents are also given regular training. At present 43 staff members work together with the Director. Govt. is funding this project. Mandya local govt bodies recognize our school and they have great appreciation for our service.

For the reason of Covid -19 school was not opened. But everyday staff came to school and make ADL online classes.
