Desk of President

Dear Sir/ Madam,

It is my immense pleasure and pride to express my views with you through this activity Report of DDS for the year 2022-2023, it is hearting to note that despite many hindrances and challenges. District Disabled School has proven itself quite relevant through endeavor to overcome that, in fact, this report is neither simply a narration of major activities undertaken nor a depiction of milestone achieved during this year.

“While intended to emphasize on pre-people interventions this year. We focused on equal opportunities in education & overcoming social exclusion of physically & mentally disabled children. Paying special attention to project which were part of long-term efforts relied on work with local community- involving volunteers and needy families.

With continued reliance and emphasis on importance on contributions from communities & mobilization of finance from viable sources, DDS strives hard with it is all for contributing to its efforts for sustainable wholesome development of its stakeholders and doing the very good steps for the child with disabilities as well as others of the society from time to time.

I hope so, this information broacher to be supplied the details information about the DDS & its projects to all concerned for the better convenient .

With warm regards

Yours faithfully

Desk of Principal

Sir/Madam

I am glad presenting you 5th edition of Annual Report of Jhadeswari Special school for the Cerebral Palsy for your kind convenient. Just I will discuss about the cerebral palsy children and reason for the better sensitization of all concerned.

Cerebral palsy is an umbrella term that refers to a group of disorders affecting a person's ability to move. It is due to damage to the developing brain either during pregnancy or shortly after birth.

Cerebral palsy affects people in different ways and can affect body movement, muscle control, muscle coordination, muscle tone, reflex, posture and balance. Although cerebral palsy is a permanent life-long condition, some of these signs of cerebral palsy can improve or worsen over time. People who have cerebral palsy may also have visual, learning, hearing, speech, epilepsy and intellectual impairments.

I hope so these activities report to be supplied some awareness about the children with cerebral palsy as well as the institution.

I give my best regards to the guardian, parents, donors, our committees, Dist. Administration; State Government as well as Government of India for their support and suggestion from time
