6. Mr. Kamuthurai .C - Member

Theni Social Rehabilitation and Development Trust

Introduction :

Theni Social Rehabilitation and Development Trust is a non-governmental, non-partisan, non-political and non-religious organization based at Vayalpatty, veerapandi post in Theni District in the State of Tamil Nadu. We focused Sustainable holistic transformation of the poor, marginalized, disadvantaged and socially excluded thereby specifically persons with disabilities envisaging a just and fair society. During the year, **TESORDT's** partnership with Donors, Government, and other Civil Society organizations has been further strengthened. What we did to our target community is just a drop in the ocean. Yet in the context of the scale, complicity and diversity of challenges posed by continued poverty, marginalization and discrimination in the target area, these efforts still appear miniscule. The main body of this Annual Report presents the details on the same, and many others.

Early intervention Centre for MR Children:

We are started the EIC With 30 Mentally Retarded and Cerebral palsy children after covid – 19 lockdown and we are continue our routine to training the infants/young children with cerebral palsy on movement skills –Motor skills. And also, we have been involving in improving their ability to roll over, sit independently, stand, walk and use their hands to play and learning. This Early Intervention program is being carried out with the consultation and advice of the Special teachers, Physiotherapists and occupational Therapists.

Water and sanitation Programme:

During the financial year 2021 – 2022 providing access to clean, safe drinking water. We educated people to protect and enhance water ecosystems by empowering communities to conserve and restore forested areas in rural Theni district areas.

Special School For Mentally Retarded Children Programme:

TESORDT implemented special school programme for After covid – 19 Lockdown .The 2021 – 2022 financial year 24 MR child students and main stream education. This year 14 old students and 10 new students we are admitted from working children from various work places including hotels, tea shops, mechanical shops have been rescued and they have been continuing formal education.

We thank our well-wishers who generously donated for our activities, officials, community people and staff and volunteers for cooperating with us to carry out our projects.

With Kind Regards,

Mr. K.Murugesan
Chairman
TESORDT
