# ANNUAL REPORT 2020-2021

*A Year As Never Was..*

## Message from Director

The pandemic only reiterated the fact that Vidya Sagar creates possibilities even in the midst of challenging times. The team spirit and sensitivity towards our stakeholders' needs made us come with out of the box solutions to sail through.

I'm always bombarded with questions of how we all manage online teaching & learning and I feel proud to say that we have cracked many innovative ways to reach out to our stakeholders. Despite the challenges posed by the COVID 19 pandemic, we as a team were able to sail together positively and proactively.

We started with listening to the voices of our students, parents and teachers on their needs which paved the way for constructing guidelines (Standard Operating Procedure) for the new normal functioning. As a team, our key focus was the emotional & physical well being of our students and their families. The year was tailor made with activities that could be woven into the functional routine of the family. We chose family based rehabilitation as the model to connect to all stakeholders. Parents became our partners and technology became our connecting tool.

As I review the past year, I see no compromise has been made in terms of assessments, interventions, teaching & learning, events, celebrations, training programs, resource making, building capacity and advocacy.

Many of the above would not have been possible without the generous support of our donors who let us reallocate funds for nutrition support for needy families, technology gadgets for students and staff.

Even though we are longing to get back to school for normal functioning, we understand that there are still no vaccines for below 18 years and that still puts us in a very dicey situation. Come what may, we will continue to explore various avenues to connect with our students & their families till we cross the bridge.

As a responsible citizen, I urge each of you to get vaccinated at the earliest, protect yourself and the community you live in.

Stay healthy, Stay safe all!

"Life isn't about waiting for the storm to pass...It's about learning to dance in the rain."- Vivian Greene

## Timeline of Events & Training 2020-21

### Events

**March 2020  
Unexpected  
Closure**

- ❖ 13<sup>th</sup> - Last working day of the academic year
- ❖ 15<sup>th</sup> - Government order to close schools due to the pandemic
- ❖ 24<sup>th</sup> - Total lockdown begins all over

**April 2020  
Eurekaaa!**

- ❖ 16<sup>th</sup> - first virtual case conference via Vidya Sagar WhatsApp group

**May 2020  
Tech  
Connect**

- ❖ 4<sup>th</sup> - End of WhatsApp virtual case conference
- ❖ 4<sup>th</sup> - 12<sup>th</sup> - Relief funds given to VS BPL families
- ❖ 17<sup>th</sup> - Vidya Sagar receives online award from Headway foundation
- ❖ 24<sup>th</sup> - "Knockdown Lock-down Activities" with stakeholders and families - "Celebration of life"
- ❖ 28<sup>th</sup> - Tech support for Chetana Sign Language

**June 2020  
Churning  
...**

- ❖ 5<sup>th</sup>, 7<sup>th</sup> & 9<sup>th</sup> - Online surveys sent for parents, students and teachers
- ❖ 18<sup>th</sup> - Staff and board members Google meeting
- ❖ 22<sup>nd</sup> & 24<sup>th</sup> - SOP discussion with parents through Zoom and YouTube with Doctor panel
- ❖ 28<sup>th</sup> - Tech support for Chetana Sign Language Course

### Training Programmes

**May 2020**

**1  
Training  
Programme**

- ❖ 21<sup>st</sup> - TARA team - One of the panelists of FICCI D&I's Webinar on "Inclusive technologies for a post COVID world"

**June 2020**

**4  
Training  
Programmes**

- ❖ 3<sup>rd</sup> - TARA webinar on Housing - A basic premise for interdependent living" conducted by Patients Engage
- ❖ 11<sup>th</sup> - 19<sup>th</sup> - Vision department conducted a workshop for staff of CPLF, Srilanka "How to identify & work with children with vision issues"
- ❖ 20<sup>th</sup> & 27<sup>th</sup> - TARA series of Tamil webinars on "Home modifications for independent living in rural areas" for TN District Disability Forum
- ❖ 27<sup>th</sup> - TARA team - training on home accessibility for VS

**July 2020**

**1  
Training  
Programme**

- ❖ 8<sup>th</sup> - S.Jayalakshmi conducted workshop for Amar Seva Sangam community workers on "Normal Development"

- ❖ 8<sup>th</sup> - TARA team virtual discussion on "Bathroom accessibility - Design for Dignity" organized by eiLabs (Enable India)

- ❖ 13<sup>th</sup> and 14<sup>th</sup> - Kalpana Rao and Bhavna Botta presented on IICP's webinar "Technology for children with communication and access limitation"

- ❖ 24<sup>th</sup>, 25<sup>th</sup> & 27<sup>th</sup> - Vision department workshop for community workers of Amar Seva Sangam on 'Working with children with vision issues'

- ❖ 27<sup>th</sup> - KS.Uma presented in NIEVPD and NKT college's webinar on "Technology for communication"

- ❖ 31<sup>st</sup> - Kalpana Rao spoke in NIEPMD's webinar on "Holistic Management of children with CP"

**August 2020**

**5  
Training  
Programmes**

# INNOVATION IN CRISIS

## Vidya Sagar Virtual Service Delivery 2020-21

During mid-March 2020, the rise of the global pandemic brought the worldwide education system to a standstill unexpectedly. After a gala celebration of our 35th Annual Day, we initially welcomed the break due to the lockdown, not realising the long-term impact & consequences of our normal school functioning.

Due to the pandemic, persons with disabilities had been cut off from all services such as rehabilitation, education, and other forms of support services. This led to gaps in education and training, isolation, and possibility of acquiring secondary impairments. The impact of this would be further marginalization in comparison to other children including those with mild and moderate disabilities.

Once we started to realise the devastating impact brought due to COVID-19, we slowly started to think of alternate modes of functioning.

Our primary concern for our stakeholders were health, safety, and emotional wellbeing. From day 1 of the lockdown, along with our students, we have also been working with their families to ensure that each child makes progress and their family is in a positive state of mind. We started sending COVID-19 related information including guidance for safety, medical issues, rehabilitation, and emotional well-being support through WhatsApp, audio calls and other video call apps.

We even conducted an online fun event during May 2020 called "Lockdown Knockdown" to keep everyone's spirits high amidst the uncertainties around.

Picture shows poster made by Vidya Sagar inviting families to share photos or videos of creative activities being done at home during lockdown

4 picture are shown from left to right. Picture 1 shows a child enjoying story time : Picture 2 shows one of our student enjoying the greenary at home:

Picture 3 shows a young adult sitting on the bed and reading news paper : Picture 4 shows a child showing off his art work

# INNOVATION IN CRISIS

As the saying goes, 'Necessity is mother of all inventions', the lockdown gave us the push to think of "out of the box solutions". And then Eureka!! came our WhatsApp special group for our April 2020 case conference where each department presented using PowerPoints, videos, audios, and text messages. At that juncture, we were hoping

to function normally from June 2020 and did not realise the need for advanced technology for connecting. The WhatsApp case conference which happened for 3 weeks from April 16th to May 4th was a new experience indeed but we felt very accomplished at the end.

By October 2020, we had explored many meeting platforms to conduct our online meet, training sessions and virtual events. Our mid-year case conference in October 2020 progressed to 2 days Zoom platform, where we could all present videos, audios, PowerPoints and have live discussions.

Picture shows two photo collage of few staff members attending online case conference from their respective homes

Prior to the pandemic, technology was used only in some areas of our service offerings. Post pandemic, we quickly learnt to explore and adapt ourselves to the best suitable apps appropriate for online connection with our stakeholders and family.

Though most parents were familiar with using WhatsApp, there were challenges in using them for long video calls, the availability of network connection & the validity of mobile data.

Online mode: Recognizing that present technologies cut through physical barriers and that the parents and family members could be useful resources, it was decided to use the online mode as the alternative. Over 3,800 stake holders and their families were reached utilizing the remote learning mode. Creative use of materials at home for activities were used and parents picked up furniture and materials from school. Wherever needed, tools for online modes were provided for both staff and users - smart phone, tablets, I pad, laptops, dongle, pen drive and hard disks.

### WHY ZOOM?

- 1. Ease of use
- 2. Panelist option
- 3. Centralized control
- 4. Automatic cloud recording
- 5. Easy Report generation
- 6. Sign language interpreter spotlight
- 7. Poll option
- 8. YouTube live streaming
- 9. Reasonable cost

The technical support team of Vidya Sagar quickly ramped up the necessary skills to make sure there was no gap in the service continuum. We started exploring various new apps such as Zoom, JioMeet, Google Meet, Microsoft Teams, Cisco Webex etc. We narrowed down to Zoom for its various ease of use features.

Picture shows Power point slide reflecting the deliberation and decision made in connecting online platform

# INNOVATION IN CRISIS

## Making our own guidelines

In June 2020, we had conducted surveys through Google form with our stakeholders, especially parents, students, and teachers to come up with a Standard Operating Procedure (SOP). The voices of our stakeholders led us to come up with the guidelines for the new normal functioning.

By mid-July 2020, we finished conducting a series of webinars online with our parents and regional/national NGOs discussing our guidelines and planning for our children/adults with high restriction in participation and high support needs. Few NGOs adapted our SOP as their guidelines which gave us a sense of pride.

We also shared a copy of our SOP with the Commissioner, Disability Welfare for review.

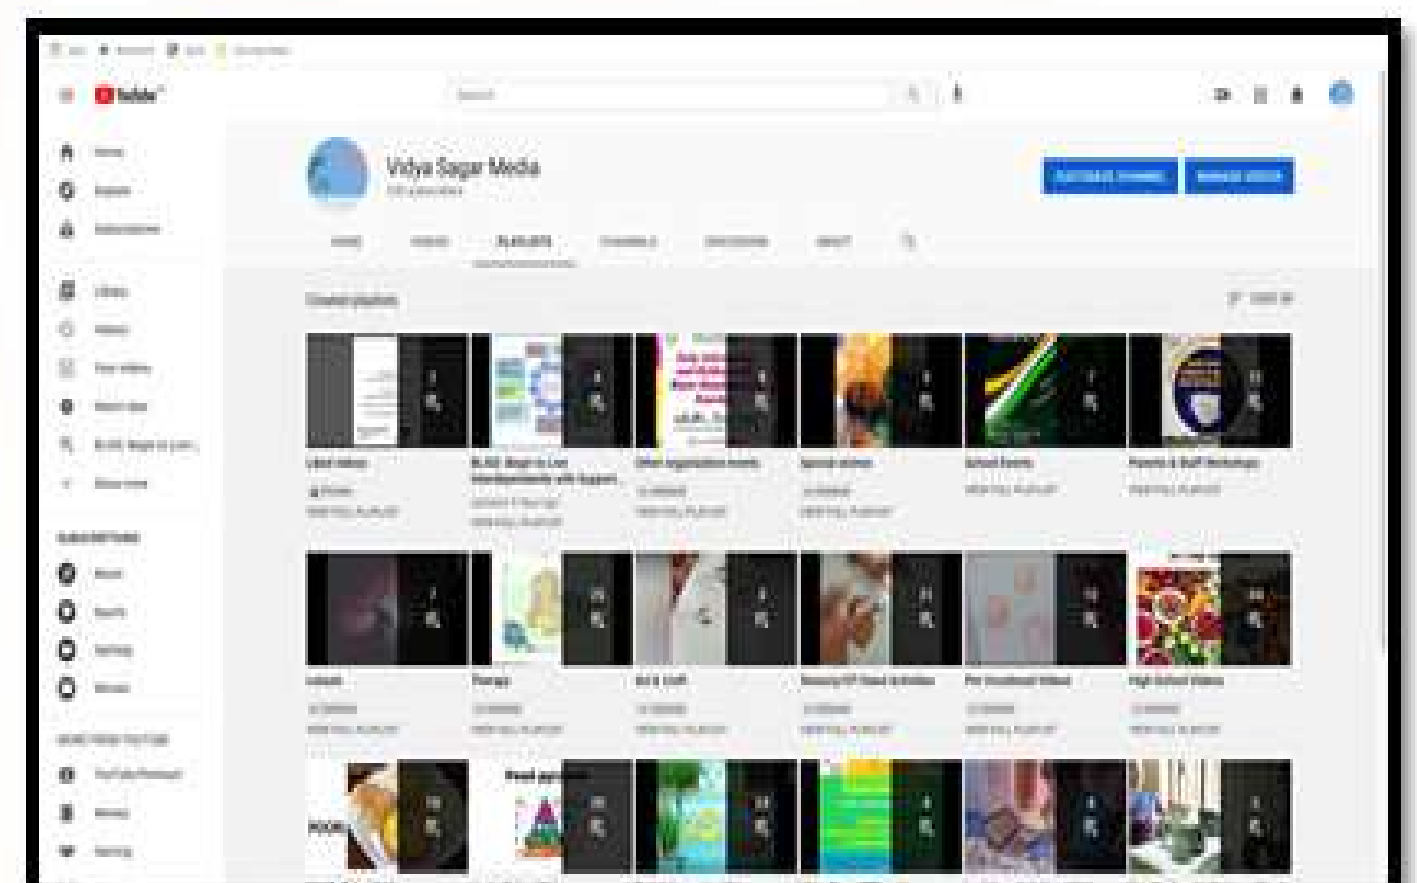

*Click on the picture to read full SOP*

## Parents as partners:

The aspect of parent training and skill transfer has always been a strong part of all programs of Vidya Sagar and thus, it was decided to use Family based Rehabilitation as the guiding mode. A YouTube channel was created for easy access of the activities through a smart phone. Communication charts and lessons were sent home where ever possible. All this put together ensured that parents are equipped and retained their skills to support their ward in the areas of Activities of Daily living, Therapy, Education and Leisure.

*Picture shows screen shot of Vidya Sagar YouTube Channel*

## Changing focus –

The focus of intervention changed, health and well-being became the priority. As major work was with children and adults with developmental

disabilities, therapy and communication became the area of focus and were made functional. Life skill education took center stage. Academics was taught through the project method and topics were connected to life. Materials including furniture, play

material and communication aids were sent home. Families were enabled to harness the Government schemes.

Workshops were conducted for emotional and physical well-being and all events were celebrated on line to keep the spirits up.

*Left to right -Picture 1 shows a child doing therapy, being helped by sibling; Picture 2 shows a young adult helping her mother in the kitchen; Picture 3 shows family game time*

## Production & Vocational Center activities 2020-21

## ACTIVITIES CONDUCTED DURING YEAR2020- 2021 FOR N T related DISABLED STUDENTS

Due to COVID 19, schools were closed as per Government restriction rules, On line classes were conducted to students, and support services provided to family throughout the year. Details mentioned in our Annual report.

For Below income group families nearly 150 families, groceries , and nutrition supplement given for the continous six months , because of Pandemic lock down, many parents lost their jobs.

Smart phones provided to selected very low income group students to continue their studies through online. Around 25 children benefited through this.

Online sessions for special education, physio therapy, Occupational therapy, communication training, Story telling, Arts & crafts, sports were taughted to all students.

Workshop , awareness programme, Wellness, emotional workshops conducted every month to parents, and professionals.

Separate chat sessions conducted to students, and parents with the social workers, counsellors.

All workshops, awareness programmes were streamlined through you tube channels also. The details of workshops and training programme available in our annual report.

On a positive note, the pandemic situation was more optimally utilized by connecting to a large number of people virtually, both in the form of training extending outside the country and assessments /parent training during the online communication sessions.

No compromise has been made in terms of assessments, interventions, teaching & learning, events, celebrations, training programs, resource making, building capacity and advocacy. Many of the above would not have been possible without the generous support of our donors who let us reallocate funds for nutrition support for needy families, technology gadgets for students and staff.

Aids and adaptations, furniture , playing materials, education materials sent to students home to use in their home environment learning.

Beneficiary details attached in excel format.
