Message from the Founder Director

The year 2019-2020 was an eventful year. In April, 2019 there were two Art exhibitions one at the Indian Museum and another at the Asiatic Society where the artwork of our students and trainees were displayed. People of different walks of life The Asiatic Society graciously allowed us to celebrate the five years of YAAR in their Salt Lake campus.

A book on 'Understanding Autism Through the lens of Parents and Professionals' edited by Dr. Subir Dutta and Dr. Mitu De was published by The Asiatic Society. We hope many people will become aware of autism as the publications of The Asiatic Society have a wide reach.

The Calcutta Tramways Company arranged for a tram ride for individuals with autism and their families in April, 2019. What a glorious way to spread Autism Awareness in the month of April, which is the World Autism Awareness Month (WAAD).

It was in this year that Samaj Sebi Sangha, a well known Durga Puja Committee of Kolkata came forward with the proposal of making Autism Society West Bengal their Social partner. Our students, teachers and members were invited to the 'Khuti Puja', Rakhi celebration, Independence day and Durga Puja celebration.

During Durga Puja some of our students of the Dikshan unit staged a fashion show with ramp walk. Other Dikshan students and Aarohan trainees staged a short skit on Durga Puja. Samaj Sebi Sangha gave an impetus to our autism awareness program.

During this financial year some staff, members have been invited as resource persons both within India and abroad. ASWB has also organized a number of free workshops. Outreach programs have been initiated in Jhargram and Nityaberia, Nazat, 24 Parganas (South).

In our school we endeavour to organise all events that are found in a mainstream school. Of course we have reasonable accommodations in place. So we had our Annual Concert in May where three self advocates co hosted the program along with a special educator. Rabindra Jayanti, Independence Day, Rakhi Utsav, Children's day, Christams, Saraswati Puja, Holi were all celebrated in school. The Summer Camp was great fun. Picnic and annual Sports were held in Jan, 2020.

The lockdown in March, 2020 and pandemic will surely change the way we function. We closed our school in March, 2020 when the Honourable Chief Minister issued a notification. Then the Prime Minister of India declared a nationwide lockdown. We understand that we will have to face this new situation calmly with fortitude. We hope all our staff, members, parents and well wishers will stand by us during the times of COVID-19.

Indrani Basu

Message from the Secretary

A one month parent training program started this year, in 2019 for parents who could not get leave from office or had other difficulties for a three month long course. Afternoon respite started where students learn to spend their leisure time constructively. The 5 (five) year celebration of YAAR took place in April, 2019. The soft skills training program started in Mukundapur. We started some baking classes with the Aarohan trainees. We started yoga and skating classes.

The Library which was at 22, Ara Begum Row was shifted to Mukundapur premises. This was a boon to the D Ed students. We have started planning a student library section catering to our students in various sections. We are so glad to get guidance about Library from Dr. Banhisikha Chaudhury, retired In charge Bose Institute.

The second batch (2017-2019) passed the Final Examination with 100% success.

We had to close our school in March, 2020 following the directive of the honourable chief Minister. Nationwide Lockdown started in March, 2020. New strategies need to be implemented as we pass through unprecedented times.

Dr. Mitu De

Our Logo

Our logo is made of puzzle pieces of different sizes and shape yet they all fit together. We believe in neuro-diversity. We believe that difference can work together to form a cohesive and just society. We need to understand and accept each other differences. Supporting each other difference and celebrating each other's strengths.

In isolation a single puzzle piece maybe interpreted differently by different people. To some, the symbol may be simply a reflection of the idea that autism spectrum disorders are puzzles that have not yet been solved. To others, the single puzzle piece may reflect that children who have autism are themselves pieces of the puzzle that do not fit in. To others still it could represent the mechanical nature of an ASD individual's thought process.

Autism Society West Bengal

A nonprofit parent initiated organization started in 2002 to promote the support and inclusion of individuals with Autism Spectrum Disorder in society.

Autism Society West Bengal's Vision

A supportive, social environment where persons with Autism are understood and their right to participation upheld.

Autism Society West Bengal's Mission

To enable individuals with Autism and their families to participate in developing strategies to improve their quality of life; optimize their strength through education, advocacy and support.

Autism Society West Bengal Overview

The organization started when a group of parents felt the need to qualitatively improve the lives of Autistic individuals and their families. In Dec 2002, ASWB began as a parent support group with 4 parents and 3 individuals (who were related to individuals with autism), with the focus on intervention techniques for autistic children, and raising awareness about Autism. ASWB was registered in December 2002.

Dikshan the special school for students with autism was started in 2003. In 2009 a section for older student started focusing on work and life skills. The Parent Training wing ASPIRES (**A**utism **S**pectrum **I**ntervention **R**esearch **E**ducation and **S**upport), started in the year 2008 with three parents. Since the number of parents looking to be trained has increased to about 12 families per training. Soon the early Intervention unit started providing school readiness program to young kids with autism. A one month parent training program started this year in 2019 for parents who could not get leave from office or had other difficulties for a three month long course.

We believe that young individuals with Autism need a platform to share their views and meet with their peers. In order to provide them with this platform we started YAAR (Young Adults With Autism Reach Out), a social club in the year 2014. We also had 5 year celebration of the club in the prestigious Asiatic Society campus in Salt Lake. ASWB always strives for supporting individuals with Autism to reach their full potential. The soft skill training program is an

initiation in that direction which started in the 2017. Over the years we have added new programs in our school so that the students get a rich and diverse experience.

Autism Society West Bengal (ASWB) creates awareness about the day-to-day issues faced by individuals with autism spectrum, and their families. We advocate for appropriate services for individuals across their lifespan, and provide information regarding management, education, research, and advocacy. We conduct several awareness campaigns, workshops and seminars and in house trainings throughout the year. Special walks, art exhibitions and Programs are held on 2nd April (WAAD) each year to increase the awareness in the general public. In April 2019 a book 'Understanding Autism' was published by The Asiatic Society and co edited by our Secretary.

To create awareness at all levels ASWB has been partnering with different mainstream schools, university colleges, corporate houses, different national and international organizations to reach out to more and more people in the society regarding Autism on one hand. In 2019 we had the privilege of being the social partner of Samaj Sebi Sangha, a well known Durga Puja Committee of Kolkata.

Organizational Profile

Autism Society West Bengal is a parent-directed NGO. ASWB believed in open door policy so we encourage parents to actively participate in child's development process and share their feedback about the same. This helps us to ensure delivery of quality care and services to individuals with autism and their families. The organization has clear structures and open channels of communication between management and staff as well as with the beneficiaries and their families resulting in developing appropriate and suitable strategies to design programs for the beneficiaries. Equal opportunity for decision-making is reflected in the ways of working at Autism Society West Bengal. A team of highly dedicated, efficient professionals and active volunteers remain a source of strength and support, which will help us to reach our goals.

Networking with other organizations

Autism Society West Bengal (ASWB) works closely with other organization not only in exchanging and sharing information but also in training and setting up services for individuals with autism. We have conducted lectures, orientation programs and/or hands on training with following organizations:-

- 1) Action For Autism, New Delhi

- 2) Autistic Children's Welfare foundation, Chittagong, Bangladesh.
- 3) Dwar Jinkerman, a school for students with special needs, Shillong, Meghalaya
- 4) Goodrike School, Siliguri, West Bengal
- 5) Indian Institute of Cerebral Palsy, Kolkata, West Bengal
- 6) Mary Rice Centre, Shillong, Meghalaya
- 7) Supportive Learning Centre, Hyderabad
- 8) Spectra School of Autism, Bangladesh
- 9) Institute for Pediatric Neurodisorder and Autism in Bangabandhu Sheikh Mujib Medical University, Bangladesh
- 10) National Institute for empowerment of Persons with Multiple Disabilities (NIEPMD)
- 11) Mental Health Foundation (MHF), Kolkata
- 12) Keystone Institute, India; An Educational Institute on Disability, Community, and Innovation
- 13) Centre for Autism Therapy, Counselling and Help (CATCH), Bhubaneswar, Odisha, India.
- 14) National Institute of Developmental Education (A Unit of Atrayudh Foundation), Alipurduar, West Bengal.
- 15) Department of Nursing, Aliah University, Kolkata.
- 16) Shashwat Jigyasa, Lucknow, Uttar Pradesh.
- 17) KIIT International School, Bhubaneswar, Odisha
- 18) Institute for Handicapped & Backward People (IIBP). Nityaberia, Nazat, North 24 Parganas.

Milestones of Autism Society West Bengal (ASWB)

2003 – DIKSHAN, A Special School for students with ASD founded.

2004 - DIKSHAN Therapy unit started which provided Hourly Intervention to children with ASWB who were not enrolled in Dikshan.

2005 – The Telegraph Award for the “School that Cares”.

2006- Started Summer School during the summer vacation. (During summer school we accommodate families who cannot avail of our services at other times.)

2008 – ASPIRES, Parent training with child commenced.

2009 – Invited by Organizations in Bangladesh to train teachers & parents.

2020- Outreach program started in Jhargram and Nityaberia, Nazat, 24 Parganas (North).

In March, 2020.

Autism awareness programs

Objective:

- **To create awareness about Autism**
- **To showcase the talents individuals with Autism have**
- **To make them part of mainstream society**

Our aim is empowerment with knowledge. With this aim, we organize different awareness programmes in collaboration with Government departments, shopping malls, mainstream schools, corporate houses etc. Some of the awareness events are:

- a. **Awareness walk** – Awareness Walk for Autism is organized every year on World Autism Awareness day (2nd April). Every year all the students, teachers, staff, parents and

volunteers take part in this awareness walk which usually takes place in the centre of the city. We also invite celebrities and other distinguished guests. This year too on 2nd April, 2019 there was a autism Awareness walk.

- b. **A –shadharan** – Since 2015, we have been organizing ‘A –shadharan’ an art exhibition by individuals with Autism. The main aim of the event is to bring out and speak about the talent individuals with Autism have. We have been fortunate enough to have collaborated with ITC Sonar, Victoria Memorial Hall and Gaganendra Pradharshanshala for the event. This year in April, 2019 ‘A –shadharan’ an art exhibition was held in collaboration with the Indian Museum. We were fortunate to have another collaboration in April, 2019 with The Asiatic Society. A 4 day art exhibition of the artwork of Dikshan students and 4 artists of the Aarohan unit was held in the Asiatic Society campus in Salt Lake.
- c. **Daan Utsav** – Autism Society West Bengal have been a part of Daan Utsav – India’s Joy Of Giving festival since 2013. We have an ongoing partnership with Apeejay School and ITC Limited since 2014 where we put up tree full of wishes of the individuals with Autism in the form of teaching learning materials, stationery items used in the classroom, items used for making art and craft items, food items which help as reinforcers etc.
- d. **Flash Mob Dance** - Autism Society West Bengal performed 1st Flash Mob dance at Quest Mall on 2nd may, 2014. Students, teachers and parents all participated in the dance to create awareness about Autism. Flash mob dance has been a part of awareness programme at IBM the 2015 and also as part of Autism Awareness Walk in 2018.
- e. **Sit and draw programme** – Students from Dikshan, the special school run by Autism Society West Bengal also takes part every year in Apeejay Anand Library Art Mela since 2015. This year too students participated.
- f. **Cultural Programs:** Some students took part in the cultural Program organized by the Paschim Banga Rajya Pratibandhi Sammeleni. This year, in 2019 students took part in Rakhi Utsav and Durga Puja celebrations of Samaj Sebi Sangha as their social partner.
- g. **Exhibitions** – Autism Society West Bengal also takes part in exhibitions cum sale of the handicrafts prepared by the students at pre vocational unit ‘Aarohan’. We have participated in exhibitions held at Gokhale Memorial school in 2016. We also took part on science exhibition held at Heritage Institute of Technology in 2016 and 2017.
- h. **Paper presentations:** In few national and International Conferences papers have been presented. This year papers were presented by Director, 2 staff members, 3 Board members and 1 life Member,
- i. **Paper publication:** Research papers have been published on a regular basis.

2019 -2020: Beneficiaries

1. Dikshan
 - a. Junior Section - 12 students
 - b. Intermediate section - 15 students
 - c. Aarohan Vocational Unit - 8 students
 - d. Dikshan 2 - 6 students
2. Counselling – 284 families/individuals
3. Early Intervention Unit
 - a. Verbal Behavioural Analysis Programme -37 students
 - b. Parent training Programme 3months -20 students
 - c. Parent training Programme 1 month - 54 students
 - d. Intervention -154 students
4. Occupational Therapy Classes/sessions – 104 individuals
5. Individuals attending mainstream with support from ASWB – 35
6. Families and professionals who attended ASWB workshops - 200

ASWB Programmes & Activities

- Counseling

Objectives

- To assess and diagnose child and suggest the most suitable intervention program for the child.
- Counseling the families to accept the diagnosis.

It is the main point of interaction or rather the first point of interaction with the individual and his/her family. Clinical Psychologist examines the child and try to investigate the problem area and how to work on it. It also include diagnosis, assessment, functional assessment as suggested by some schools, cognitive behavioural therapy for individuals, medical therapy etc

Beneficiaries : 284 individuals have been counseled.

- **Early Intervention School Readiness Programme**

Objectives:

- **To prepare individuals for mainstream schooling**
- **Developing social skill, classroom behaviour**

The programme will develop communication and enhance emotional and social abilities of the child. This will enable the child to learn from his /her environment. Through individual assessment, the child's strengths and areas where he/she may need support will be realised. The purpose of this programme is for the child to go into mainstream school with whatever support the child may require. Most of the kids coming to this unit are in the age group of 2 to 6 years. Some of the individuals attending our Early Intervention programme have been successful in getting into mainstream schools. This unit meets the educational and social-emotional needs of young children diagnosed with Autism through structured preschool classrooms, behavioural services, Individualized Program Plans (IEP) and Yoga.

Beneficiaries: 35 individuals from this unit got admission in mainstream schools.

- **Parent Training Unit**

Objectives:

- Empowering parents about intervention programmes to ensure that the learning process continues even after the programme gets over.
- To develop simple skills of an individual with Autism like eating habits, toilet training, imitation skills, play skills and communication skill.
- Creating awareness about Autism.

We believe that parents play an important part in child's life and parents of children with Autism are integral part of their child's educational programme. The parent training empowers parent with knowledge and skills. It enables the parents to take charge of their child's learning programmes and prepare them to advocate for their child in the mainstream. We welcome both parents to attend this program. We have also had incidents of grandparents attending. The program runs over 12 weeks period and starts each March, July and November. It uses research based teaching methods *viz.* ABA/VBA and TEACCH. A group of 8-10 parents are trained together with their children under the guidance of experienced trained therapists. The

program focuses on one-to-one intervention tailored individually to each child, and taking into account the child's strength, emerging skills and weakest skill areas. The main components of the Parent Training are Behavior Modification Techniques, effective Teaching Procedures, Play and Social Skills and the use of Schedules. It is an intensively communication based therapy. ASWB conducts both short parents training for 10 days, advanced Parents Training for 1month and 3months are conducted.

Beneficiaries: 3 Months Parent Training program – 20 families
1 Month Parent Training program - 54 families

- **Dikshan**

Objectives:

- **To develop communication skill**
- **To support individuals achieve a wide range of functioning levels.**
- **Teaching academics.**

A school for students with autism. We are not tied to any one doctrine since children with autism typically have uneven patterns of development, resulting in a wide range of functioning levels. Students here receive ABA therapy (Applied Behaviour Analysis) at a 1 : 1 basis. The emphasis is on developing communication, also we aim to develop independence so we use a lot of structure. The students also work in groups to develop social and leisure skills. This includes schedules and other visuals that help the child to cope. There are 3 sections here:

Junior Section - The individuals here are in the age group of 6 to 13/14 years

Intermediate - The unit help individuals to learn basic academics as well as pre vocational skills.

Beneficiaries: Junior Section– 12 students

Beneficiaries: Intermediate Section- 15 students

- **Aarohan**

Objectives:

- **Providing skill development training**
- **Developing skills for employment opportunities**
- **Looking for avenues for employment for young adults.**

It is the pre vocational unit for young adults with Autism in the age group from 16 years to 25 years (approx) to learn vocational work as well as academics. The young adults here make note books, jewellery, bags, home décor, greeting cards. Once a week they also prepare food as part of Canteen time. They are also learning non flame cooking. On canteen days, they prepare

maggi, pasta, jhal muri, aloo kabli and different types of sherbaths. Recently baking has been introduced. The trainees have started to prepare cookies and cakes.

Beneficiaries: 8 trainees are undergoing skill development training now.

- **Dikshan 2**

Objectives:

- **Providing classroom teaching for those who are attending school or cannot be accommodated due to lack of availability of seats in the morning session.**
- **These classes also provide after school support class for individuals.**

We have started an afternoon classroom programme for children who attend play school in the morning or who due to some reason can't get admission to our Dikshan school programme (morning). It also caters to the needs of individuals with Autism who stays far off areas.

Beneficiaries: Dikshan 2: 6 students

- **Intervention**

Objectives:

- **To provide continuous support to individuals.**
- **To provide support for attending mainstream students**
- **Providing support to outstation individuals who are unable to attend regular classes.**

These are short term training programmes where individuals are allotted classes according to their needs for a specific number of days in a week/month for one hour duration. The aim of this programme is to provide support to individuals who are attending mainstream schools or stay outstation where they don't get proper support for their children.

Beneficiaries: 154 individuals

- **Young Adult with Autism Reach out (YAAR)**

Objectives:

- **Providing a platform to share**
- **Creating friendships, bonding**
- **Developing ways of communication with peers.**
- **Providing a Happy Place**

A monthly, social club which enables young individuals with autism to make friends and connect better with the society. Participants are some students of Dikshan, some students with ASD getting mainstream education, employees with ASD, students of colleges and universities. We strongly believe for social inclusion to be a reality people both with and without autism should spend considerable time with each other, getting to know each other.

Participants: 20 to 25 young adults

- **Diploma in Special Education (Autism)**

Objectives:

- **Preparing individuals to train and teach individuals with Autism.**

Autism Society West Bengal started special D. Ed course approved by Rehabilitation Council of India (RCI) from the academic session 2016-17. The 1st batch started in 2016 with 12 students and 10 of them have been employed by different organizations working in the field of disability. The third batch students will write the exam anytime in this year as the pandemic has pushed the dates to uncertainty. There was 100% success rate in the final examinations for both 1st & 2nd batch of students.

Successful candidates: 18 students have completed D. Ed in ASD from ASWB (from 2 batches)

- **Workshops/Seminars**

Objectives:

- **To share the knowledge**
- **To reach out to more people in the society who might be in need of the services.**
- **Creating awareness**

Autism Society West Bengal believes in empowering individuals. They can be parents, professionals, family members, and people in the community. This empowerment comes from sharing ideas, opinions as well as providing hands on training. Since its beginning, we have been organizing as well as attending different workshops in Kolkata, Delhi, Shillong, Hyderabad, Bangladesh, USA, Mumbai etc. We also believe through these workshops and seminars we can reach out to a wider population which is not always possible through therapy classes. Every year we reach out to 500 to 1000 approx people through such workshops. We believe it's equally important to organize as well as to attend workshops and seminars so as to keep ourselves updated. Professionals from ASWB are invited to be resource persons at various seminars and conferences.

Beneficiaries: Families and professionals who attended ASWB workshops - 200

- **Free Interactive Sessions**

Autism Society West Bengal also conducted a series of free interactive Sessions:

- A. **On Young Adults with Autism** – with **Indrani Basu** from Action for Autism was the speaker.
- B. **Narrative Practices** by **Ranjana Chakraborty** and **Manisha Bhattacharya**.
- C. **SRV Principles and tools like MAPS AND PATH** to implement SRV rule by **Betsy Neuville**.
- D. **Financial Planning** - **Jitendra Solanki**
- E. **Learning to Let Go** – **Dr Animita Saha Chowdhury**
- F. **A free session with Dr Linda Lawrence**,(M.D) consultant Centro Ann Sullivan Peru & Consultant Kansas State School For the Blind, USA and comprehensive Ophthalmologist with emphasis in working with Persons with Different Abilities. The discussion focused on importance of Vision in the Education and lives of Students along with eye check up for all.
- G. **A free dental check camp was organized in association with Guru Nanak Institute of Dental Science and Research,Kolkata. Dr Prof Shabnam Zaheer Professor,Department of Pedodontics, Guru Nanak Institute of Dental Science and Research,Kolkata** along with her students came to our campus for dental check and also had an interactive session with parents about maintaining oral health and hygiene.

These sessions provide a platform for professionals and parents to update their knowledge about Autism and also to learn ways to improve their teaching techniques.

- **Outreach Program**

Objectives:

- **To share the knowledge**
- **To reach out to more people in the society who might be in need of the services.**
- **Creating awareness**

Autism Society West Bengal also started outreach programs at Jhargram and Najat(South 24 Paraganas).

Resources persons Mr Pranabesh Bhunia and Mr Binay Samanta visited Jhargram Autism Society to conduct an initial screening for Autism. Professionals and parents attended the two day session where our special educators from ASWB suggested and discussed ways to develop their communication method with the individuals. Jhargram Autism Society is a parent initiated organization started by parents who took training at ASWB.

Autism Society West Bengal also tied up with Institute for Handicapped and Backward People to provide support at their resource cum training centre situated at Najat .

- **Occupational Therapy Unit**

Objectives:

- **Resolving sensory issues.**
- **Developing better motor coordination**
- **Strengthening muscles**

Occupational Therapy is an important therapy for Individuals with Autism. Occupational therapy (OT) works in the area of cognitive, physical, social skills. It does this by focusing on sensory integration therapy and enhancement of motor skills. The goal is to improve everyday skills which allow people to become more independent and participate in a wide range of activities. The therapy helps to improve the quality of life for individual with Autism as it helps them to function more independently. Our Occupational therapy unit caters to Individuals with Autism from our organization as well as those who are attending other schools.

Beneficiaries: 104 individuals

- **Job Skill Training Program**

Objective :

- **To support individuals to develop skills which will be useful in getting employment**
- **To teach them soft skills which are very essential for job**

Job Skills training are very important for individuals with Autism to get engaged in gainful employment. Individuals with Autism have some difficulty in communication. Teaching them job skill training will help the individuals to overcome the difficulty that they face while interacting or communicating in a work place. It also provides a guideline for work place behaviour.

Beneficiaries: 6 individuals with Autism are being trained now as part of job skill training programme.

Regular extra curricular activities in ASWB.

Objective : At ASWB care is taken that all students have a rich typical school experience.

All extra-curricular activities and cultural programs are arranged in school.

Every week a shop is set up with actual snack items. Students actually buy from the stalls during recess. Classroom assistant Babu Patra is in charge of this event lovingly called 'Babuda r Dokan.' Students get a hands on experience in handling money. Of course monetary issues are a part of their curriculum. The Aarohan trainees take part in the selling process and also keep count of the money earned under the guidance of the special educators.

Every month a movie is screened in the Main hall for all the students and trainees.

Summer camp is held with fun activities.

Students take part in inter school cultural events.

Students are taken to do their shopping during the Autism Quiet Hour at Big Bazaar on a rotation basis.

Beneficiaries: All students of Dikshan unit and trainees of Aarohan units

New programs and extra-curricular activities introduced in ASWB.

During 2019-2020 one month parent parenting course was introduced which included group OT. Skating and yoga classes were arranged for students of Dikshan and trainees of Aarohan. Afternoon respite started.

Beneficiaries: Yoga for all students of Dikshan unit and trainees of Aarohan units

Skating was only for those who opted for this on a monthly payment basis.

Afternoon respite started small with 3 students.

Providing a supported working environment for all employees but especially for those on the spectrum

ASWB firmly believes in providing a supportive environment for all employees. Care is taken to provide reasonable accommodations to our two employees who are on the spectrum. We also provide new opportunities so our employees may discover their latent interest.

This year our Classroom Assistant, Amitava Basu actively participated in the Orientation Program of the Parent Training unit at Lake Gardens unit. He also started taking Environmental

Science classes in the VBA unit. Office assistant Amitesh Das had been entrusted with additional duty as Library assistant.

Beneficiaries: 2 employees.

Special Honour during 2019-2020

- I. In 2019, Autism Society West Bengal was invited to be the social partner of Samaj Sebi Sangha, a renowned club of Kolkata during Durga Puja. The club invited our students to be a part of social events like Rakhi and Kuthi Pujo. Students from Autism Society West Bengal also performed a song and dance skit on Kuthi Pujo and Panchami. They also participated in a fashion show at the event on Chaturthi.
- II. Big Bazaar in collaboration with Different NGOs in different cities of India started an initiative for Autism Awareness called 'Quiet Hour'. Autism Society West Bengal is the NGO partner in West Bengal. The initiative saw measures taken by Big Bazaar authorities to provide a shopper friendly atmosphere for individuals with Autism at various Big Bazaar outlets every Tuesday. This was followed by internship for Young adults with Autism at Big Bazaar outlets.
- III. It was a proud privilege of ASWB when the book on 'Understanding Autism Through the lens of Parents and Professionals' edited by Dr. Subir Dutta and Dr. Mitu De was published by The Asiatic Society.

Seminar on Collaborative Approach in ASD Management organised by Foundation for Autism Research & Education (FARE) in Chattogram on 10th February, 2020. Speakers were Kylie Hinde, Farhin N. Chowdhury, Tahmina Huq with Indrani Basu and Mitu De from Autism Society West Bengal.

9th February

Anander Utsav – A fun filled event for kids organized by ‘Anando’ – a ngo working with underprivileged kids. Manoj Mahato, Amitava Basu and Arpita Chatterjee visited the event. There were games stall and food stalls.

15th February

YAAR was celebrated a day after 14th February, so the theme was Valentine’s Day. Different means of communication was used to introduce oneself viz. by writing, by speaking and by using a PowerPoint presentation. Technology makes communication easy so one need not speak in order to communicate. All the participants shared what according to them is love. They chose a person, food, thing that is close to them and which according is love.

17th February

The Aarohan Trainees with the help of special educators and the D Ed trainees set up a weekly canteen. A single menu is set once a week. On the menu were 'Jhal Muri,' pasta', 'Alu Kabli.' On special occasions they baked cake too. The baking was done under the supervision of special educator Sukanya Das.

21st February

D. Ed. Coordinator Mr. Pranabesh Bhunia was invited by 'Voice of World' as a resource person at a three Day CRE (Continuous Rehabilitation Education) Workshop held on 20th – 22nd February, 2020 at their Behala Sakherbazar centre. The Main Theme of the 3 - Day RCI Accredited Workshop was 'Gender and Disability.'

26th February

Apeejay Art Mela organized by Ananda Library. Students from Dikshan and Dikshan 2 participated in Art Mela. They beautifully painted the umbrella provided by the organizer.

28th & 29th February, 2020

Mr Pranabesh Bhunia, D. Ed. Course Coordinator at ASWB attended the Course Coordinators Meet-2020 (North Eastern Zone) organized by Rehabilitation Council of India at the Ramakrishna Mission Institute of Culture, Golpark.

28th Feb

ASWB firmly believes in providing a supportive environment for all employees. Care is taken to provide reasonable accommodations to our two employees who are on the spectrum. We also provide new opportunities so our employees may discover their latent interest.

Lake Gardens unit Classroom Assistant, Mr Amitava Basu started taking EVS class in Feb, 2020. Amitava Basu also takes a session on the 'Rules and Regulations of the Parent Training Course' during the Orientation Program at the onset of the new batch of parent training at the Lake Gardens unit of ASWB.

Office assistant Amitesh Das has been given the additional duty as Library assistant. He has checked the catalogue number of the books in the library. Dr. Banhi Sikha Chaudhuri, ASWB Library Advisor has provided with hands on training for cataloguing the new books purchased for the Library. Amitesh also helps in the issuing and receiving library books especially by the D. Ed students.

MARCH, 2020

2nd March

Ms. Indrani Basu, Director, Autism Society West Bengal, was invited to present a paper in the National Seminar on 'Inclusiveness of the Differently Abled: Challenges and Opportunities in India' held on 5th & 6th March in Bhubaneswar. The National Seminar was organised by the School of Management, KIIT University, Odisha and sponsored by Indian Council of Social Science Research, New Delhi.

3rd March

Students of Dikshan I & II (Junior section, upto 8 yrs) took part in the Young Athletes Sports Festival at Noble Mission of South Calcutta. This Sports Festival is the initiative of Special Olympics Bharat which is a National Sports Federation for development of Sports for Persons with Intellectual Disabilities. Special Olympics Bharat is an officially recognised programme of Special Olympics International which operates in India.

3th & 4th March

Mr Pranabesh Bhunia, D. Ed Coordinator, Autism Society West Bengal (ASWB) was at the "Institute for Handicapped & Backward People (IIBP)" at Nityaberia, Nazat, North 24 Parganas on 3rd and 4th March, 2020. He took counselling sessions for families with individuals with autism. This program is a part of ASWB's mission of autism awareness in collaboration with IIBP.

6th March

Dikshan students celebrated Holi at school with song and dance. Students put 'abir' on each other's face. Teachers, D. Ed students and volunteers also participated.

16th March, 2020

Our school has closed from 16th March, 2020 as per the directive of the Honourable Chief Minister of West Bengal. Later the Prime Minister called for total nationwide lockdown. Our special educators made social stories for the students. Instructions were given to students to

improve their Self Help Skills. Emphasis was given on Activities of Daily Living. Parents were encouraged to post pictures of their children doing these activities. As we celebrate WAAD every year in April our students were encouraged to make cards thanking the healthcare professionals and all other people who were in the frontline making sure that we don't get COVID. These were unprecedented times and ASWB decided we will stay positive and learn new ways to keep the learning process on for our students.

Artwork by Barsha Deb, trainee at the Aarohan Unit.

Diploma in Special Education- ASD Course

Both theory and practical classes are held in the Mukundapur premises. Field trips as per curriculum are arranged.

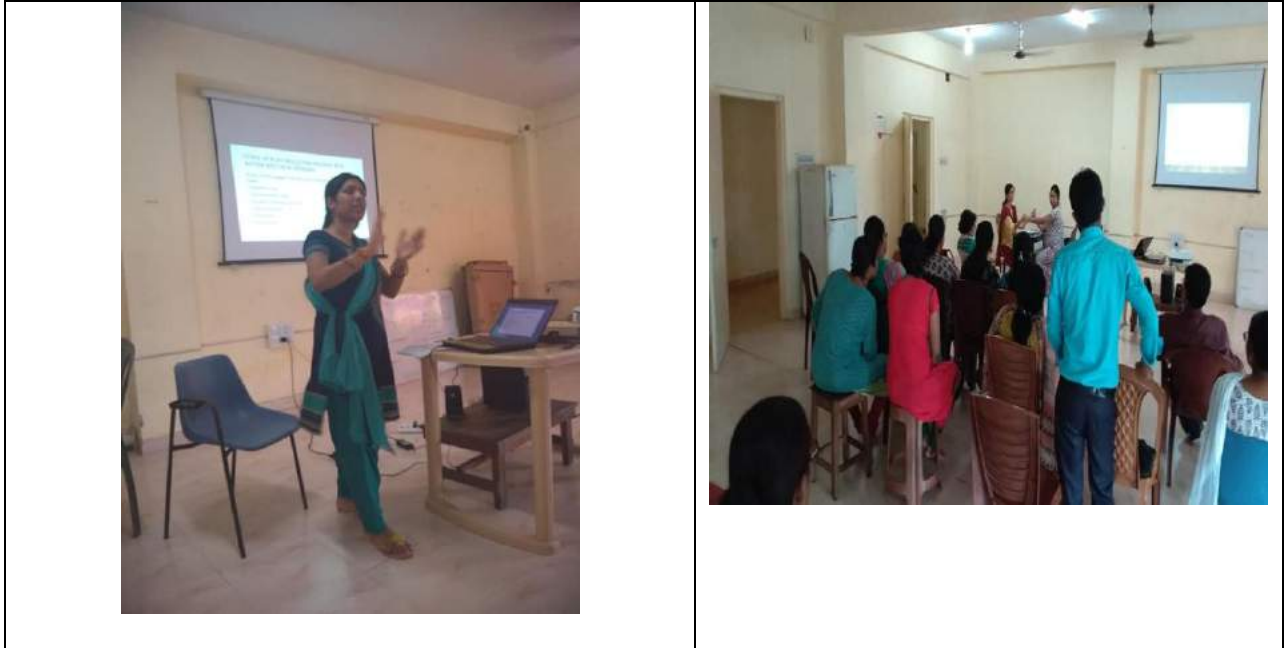

In house training of staff

ASWB provides opportunities to all their staff to update themselves. Books are purchased every year and staff encouraged to borrow books from Library. Several training and Refresher Courses are arranged all around the year. Teachers must present on any curriculum topic on a rotation basis.

ASWB Management Staff meetings

The ASWB Governing Body members met the Staff members at regular intervals. Each Section had to submit Section reports. Self appraisal reports were submitted in April, 2019 by all staff.

As we bid Farewell

1. Ms Sharmistha Das

Sharmistha Das, our very own Sharmistha di popularly known among colleagues and parents took retirement on 30th November, 2019. It was a memorable journey for all of us as she became the first person to take retirement from Autism Society West Bengal.

She started her journey with Autism Society West Bengal in the year 2007 as programme coordinator. She was a hard working,soft spoken and dignified lady always working as the bridge between teachers and parents. She use to look after how an individual can get maximum benefit from the classes as it was her job to assign classes to teachers. Apart from being a programme coordinator, Sharmistha di was a very good trained singer. Autism Society West Bengal a small event on the day of her retirement. All students of Dikshan presented hand made cards to them. All teachers,office staff and Governing body members shared their expereince of working with her. It was an emotional moment for all of us. The teachers and office staff also performed songs.

2. Nilanjana Ghosh: she left ASWB in April, 2019.
3. Banani Saha: she left ASWB in Sept, 2019.
4. Syed Wahid Murad: he left ASWB in Sept, 2019.

Appointment of New Staff

Shreya Bhattacharya joined as Programme Coordinator in Sept, 2019.

Testimonial from Staff

Shabnam Rahman- Rehabilitation Psychologist

Autism Society West Bengal is one of the most desirable NGOs to collaborate with. I am lucky that I am associated with this esteemed NGO as Rehabilitation Psychologist. They are conscious about the initiatives they take for the development and growth of the children and young adults with ASD by organising events and workshops that are extremely fruitful for the children, parents, teaching and non-teaching staff and professionals over there. The success rates, therefore, are high and I am obliged to have a contribution in the same.

With regards
Shabnam Rahman

Shreya Bhattacharjee – Programme Coordinator

After completing my Graduation, I joined Autism Society West Bengal as a Programme Coordinator. I was not aware of Autism when I first joined here. It was here that I got to know about Autism and how we can support individuals with Autism to help them lead a life of dignity. The work environment is very good as provides a positive vibe. I am thankful to all my colleagues and senior management for making me part of this organization and helping me to learn so many things. It has been a good learning experience for me till now and I hope to learn more about Autism and the training process in future too.

Warm Regards
Shreya Bhattacharjee

Insana Konoki Majumdar – Occupational Therapist

Well it's been 2 years for me to work in this beautiful organization Autism Society West Bengal. It's been a great journey so far. I would like to thank Indrani Basu mam for being very kind to me always and guiding me. Similarly, Dr Mitu De mam has been so encouraging and always wants the best for me. The management and other staff have been so cooperative and helpful. I feel much positivity in this place and love to come to work every time. My day brightens up seeing all the people with their cheerful faces and new themes of work. The best part is that everyone stopping to make me feel valuable despite their busy schedule. Sometimes it's not just about your job that motivates you, it's also the place where you work and with whom you work that makes the journey a meaningful one. So I feel so blessed to be a part of ASWB for which I really love my work and want everyone also to be happy around me.

Best Wishes and Love

Insana Konoki Majumder

Feedback of D.Ed Students

Adrija Roy – 1st Year D.Ed Student

It is a wonderful experience to be associated with ASWB. It has been one year I have been associated with ASWB. I came to know about this organization from one of my esteemed professor who is himself

associated with this organization. Initially I had a very brief experience about “AUTISM” but when I got associated with this society I got a broad knowledge about “AUTISM “.When I entered here then I came to know WHAT ACTUALLY AUTISM IS? Then I analyzed that it is a developmental disorder characterized by difficulties with social interaction and communication including repetitive behaviors. As the days went by I came to know that each autistic individual have different behavioral aspects and they behave or act differently under different circumstances. When I joined ASWB I gained the knowledge about how to deal and communicate with these children .Day by day an unbreakable bond formed with all the children, members and teachers working here. I am very lucky that I got the opportunity to be a part of this society and will look forward to use my training and skills in serving the society towards these children and helping them in all possible ways so that they could lead a normal life.

Soumyashri Dingal -1st Year D.Ed Student

It's been a year I joined Autism Society West Bengal as a D. Ed. Trainee on special education and I'm fortunate to be a part of ASWB team. Here I get the opportunity to gain knowledge and learn about several things on Autism, like how we should behave with the children with ASD, how we can teach them through the use of schedule as well as teaching learning materials and help them to lead their life independently. The students with ASD are so fun loving and some of them show their talents in various activities, like singing, dancing, drawing etc. I always enjoy the way teachers entertain and encourage the students to participate in group or individual activities. I feel pleasure to be with the staffs and teachers as they are so cooperative, friendly and encouraging. Thanks to ASWB for giving me the scope to support the students, in achieving important learning milestones by using various teaching methods. For me it is a great learning experience and best guideline to become a special educator.

ARPAITA DATTA, 2nd Year D.ED STUDENT

During my two year's course of D.Ed in ASWB, I learned a lot. After being enrolled here, I came to know what the Autism Spectrum Disorder (ASD) is, what are the challenges faced by the person with ASD and how to educate them to cope with this challenges. This is totally a different and challenging arena. I owe my gratitude to the special educators, teachers, who make this difficult field of study more comprehensible and enjoying too. Besides the academic part, challenges lies more in practically handle those specially abled children and supporting or educate them to explore their special abilities. Apart from our educators, the volunteers and care giver helps a lot in understanding those person. Hope I will be a good professional after passing out from this institution and I am indebted to all my teachers of ASWB.

Suparna Natua - 2nd Year D.ED STUDENT

At first I want to thank Team Autism Society West Bengal for providing me such an opportunity which really helped me to learn a lot, as it introduced new perspective of learning (various kinds of techniques and their successful use). It is a really helpful course that enriches my mind to new

ideas and increases my knowledge about the individuals with special needs. Here I get a very cooperative learning atmosphere; the trainers, special educators as well as the volunteers are always ready to help me for better learning. I must mention about the discipline which attracts me first. Special thanks to our director of the institution, Mrs Indrani Basu madam and our course coordinator, Mr Pranabesh Bhuniya sir. I am also thankful to my other trainers and teachers who instruct and guide me properly with their vast knowledge and experiences.

Parents Feedback

Aalapath Bandopadhyay – ‘The main priority is mainstreaming my child ‘- Three Months parent training program

Aalapath was diagnosed at an age of 3 years. After diagnosis, his parents went to other organizations and even went to visit different doctors. It was one of such visits that they came to know about ASWB. At ASWB, Aalapath and his mother went for the three months parent with child training program. According to his mother, the conditions were moderate even before the training but completion of training program saw some major improvements. Sangeeta Bandhopadhyay said that ‘He has got overall betterment in communication and cognition. Even though he is a non verbal child but after the training program he has started to speak two or three meaningful words.’ Moreover, she feels that the program has brought her closer to her son now. The understanding between them has developed. Now her main priority is child’s mainstreaming into the society and to make this world a better place for him Sangeeta is all praise for the therapists at ASWB as they provided proper guidance to her and her child. The therapists also gave encouragement to her so that she feels confident now to face all the challenges ahead.

Turna Routh – “I have got positive energy now” - Three Months parent training program

Turna was diagnosed at an age of 2 years. He was restless, unwilling to communicate and used to have behavioural issues. Then they came to know about Autism Society West Bengal. At Autism Society West Bengal, he went for counselling followed by ten days parent with child training program. After completion of the ten days training, some improvement was noticed in Turna. But he significantly changed after a three months parent training program. According to Pampa Routh, Turna's mom, "he is a happy child now. His waiting skill has improved. Turna is now conscious of his environment and situation. He is eager to communicate and express himself. He likes to do different activities now. In her opinion, "I now feel confident about my child. Our relationship has become stronger. My life is full of positive energy". She thanked all the teaching as well as non-teaching staff of Autism Society West Bengal as they have been good and caring to Turna and her. There is so much to learn from them. Pampa further states that it is because of Autism Society West Bengal that we parents are learning to manage and communicate with our kids.

Sagnik Saha – "School experience has helped in overall development" - Junior Section Dikshan

Banti Das Saha, Sagnik's mother said that it has been a wonderful experience to get enrolled in Dikshan – junior section. Sagnik has got an experience of how school atmosphere is. He got so many new friends with whom he can spend a good amount of time everyday. In her view, the school has also helped Sagnik to understand instructions and how we should follow them. The school experience has helped in his overall development as Sagnik has learned play skills, sitting habit, eye contact and understanding. However, the online classes started by ASWB have also made him experience how digital learning can be fun too. She further stated that all the teachers here are very helpful and cooperative.

Shibam Mukherjee - "Impressive virtual medium as mode of teaching" - Junior Section Dikshan

Though just after 1 month of class, the lockdown commenced, the experience of joining Dikshan was enriching. Different varieties of group activities, yoga and exercises as well as art and craft were quite good and novel additions. Post lockdown, the idea of conducting online classes through 'Virtual Medium' is quite impressive. Kids are getting more exposure to online

platform. Shibam is cooperating in the classes through video calls. Looking forward to more such online classes.

Aneesh Naskar – ‘‘Uninterrupted intervention during lockdown along with concessional seat’’- Dikshan 2

Aneesh got enrolled at Dikshan 2 in the month of November 2019. After joining the classes, Aneesh’s improvement was quite visible. We wanted him to continue the programs run by ASWB as earlier 10 days and three months intervention program were so much helpful for Aneesh. He is now enjoying the online classes started by ASWB since April because of the lockdown caused by Pandemic. According to Biva Naskar, Aneesh’s mother ‘‘We were worried when heard about the closure of schools but the online classes have given us the hope that there won’t be any compromise on our child’s development’’. He loves to attend the online classes as well as special activity sessions, yoga, occupational therapy session. His parents are grateful and thankful to ASWB management for such a wonderful planning and teachers for execution of the same. Dhrubojyoti Naskar also states that if ASWB management would not have considered his application for concession then it would have been difficult for them to continue Aneesh’s intervention.

Ranit Roy – ‘‘ Happy with the overall improvement and grateful for concession’’ - Dikshan 2

Ranit’s father is happy with the improvement in his son and he thanked ASWB management for providing him a chance to put forward the application for a concessional seat so that they were able to continue his intervention program over the years. Ranit came for counseling and went for 10 days parent child training program as well as three months parent child training followed by hourly intervention program. Finally Ranit got a chance to get enrolled in Dikshan 2 from Jan 2019.

One Month Parent training Parent Feedback

Nairiti Adhikary

I am thankful to this society. After taking one month training from the organization, my little princess is now able to speak distinctly. Thankful to all of you.

Adhyayan Nath

My child was non verbal and also had some behavioural issues. We went to consult a clinical psychologist who referred us to Autism Society West Bengal. At Autism Society West Bengal, Adhyayan was enrolled for one month Parent training. After the training program, he has developed speech and he has become a bit matured now.

Ahrashi Mukherjee

My son had the same problems which led us to consult a renowned pediatrician. The pediatrician at once identified my son to be on Autism Spectrum Disorder and referred us to Autism Society West Bengal. Aharshi went for one month Parent training program at Autism Society West Bengal. After the completion of the program, we saw improvement in Aharshi. He can now speak few words and can identify things. I am very happy with the training program and thankful to all the teachers and counselors at Autism Society West Bengal.

VBA Parent Feedback

Sayak Mondal, student of VBA.

To,
Autism Society West Bengal

Ref:- Letter Of Appreciation

Respected,
Sir/Madam

● My son Abhirup Das student of Aspire has been selected for the class of TinyTots in South City International School. Early Intervention Programme at Aspires immensely improved his condition which helped him to join the mainstream education.

I am extremely thankful to the entire team of Autism Society West Bengal for helping my child.

Regards,

● Amrita Das

Abhiroop Das ,student of VBA unit got admission at South City International School.

Donors, Well wishers, visitors & volunteer Feedback

Dr. Banhi Sikha Chaudhuri,
Volunteer, Advisor, ASWB Library

Library is the heart of any educational Institute. ASWB has its own library, which is small but rich with collections. It serves all teachers, staff members and students of D. Ed. Last year we have completed accession and processing of all resources of our library. Now users can easily access all books and journals at their need. User card has been issued to each student. We have already procured some books this year. Apart from books, we have some e books and journals published by RCI. Though we have some limitations like space problem, shortage of fund etc, authority of ASWB, all teachers and staff members are very enthusiastic to develop this library. Next we are trying to establish a kid's corner for the children of Dikshan. All of us are working together. It is a nice & happy experience for me.

Dr. Banhi Sikha Chaudhuri,
(Retd, In Charge, Bose Institute Library)

Coming to ASWB is like coming to home. Such creative, caring people fighting for change -
Betsy Neuville, Director, Keystone Institute India

Happy to be a part of the Autism family & care/love seen over the faces of children are result of the effort by your team. Thanks a lot for making them happy – Debanjan Ghosh,

Kudos to you all. You are doing a fantastic work. Samaj Sebi is glad and honoured to be associated with ASWB - ArijitMitra, D.K.Banerjee, Vaswati Sarkar – Members of Samaj Sebi Sangha.

We are honored and privileged that you people allowed us to interact with so many enthusiastic, different people. Wish to be a part of your good work in near future also - Dr Prof Shabnam Zahir, Prof, Department of Pedodontics, Guru Nanak Inst of Dental Sciences and Research

So, back in 2015 when I first volunteered for a YAAR session of ASWB, I really had very little idea about Autism. Although unlike a major percentage of people I knew that it's totally not a disease but a condition. In the 5 years that I have been a part of this beautiful organization not only I have learnt a lot about Autism (which I don't think can be learned through any other course) but I have met some people who have taught me a lot about the difference between living and feeling alive.

Through ASWB I personally have learnt a lot. One major learning would be 'Acceptance' which I think is really important to understand. On a very selfish note I would like to say that I have made some amazing friends here. I get calls/messages often from friends I made through YAAR and they genuinely care about me with a lot of purity. This I think would be the best thing I have got from here.

Cheers to ASWB and Acceptance! - Abhijeet Singh, Volunteer from Information Technology Department, Rotaract club of Heritage Institute of Technology

Workshops organized by Autism Society West Bengal 2019-2020 with nil Registration charges.

Date	Name of the workshop/conference	Venue	Resource Persons	Participants

* Being a parent led organisation, most of the members of ASWB's Governing Body members are parents of persons with autism.

** Grandparent of a person with Autism

None of the governing body members are related to each other.

The governing body is elected every two years.

HOW YOU MAY HELP:

Autism Society accepts gifts in cash and kind from our well wishers. Their gifts are used to give concessions for our intervention services for those families who need it.

You may help ASWB in many ways. You could help in our fund raising efforts; some of the ways funds may be used are listed below.

1. For procuring Teaching and Learning materials
2. For purchasing Furniture
3. For Sponsorship of 10 days one to one intervention for families who might need your help.
4. Sponsorship of Parent Training for families.
5. For construction of Building
6. For procuring and maintenance of Infrastructure
7. For Equipment purchase and installation
8. Corpus Fund
9. For purchasing Computer, printer and accessories
10. For purchasing Books

Apart from the above there are others ways to lend a helping hand.

- You could help in our various extracurricular programs.
- You could also be a buddy with our some of our students.
- You could buy some of the products that our students make

- You could network for us to get CSR funds
- You could organize exhibitions of the handcrafted products our students make.
- You could help in our autism awareness programs in educational institutions, hospitals, police stations, airports and railway stations.
- You could pave the way for social inclusion.
- You could also give us some of your time and get to know people with autism
- You could give information about job opportunities in open/sheltered employment.
- You could accept an individual with autism as he/she is and see the person and not their disability.

Acknowledgement:

The pictures that have been used in this Annual Report have been taken by several persons. Parents, special educators, well wishers and some professional photographers have contributed pictures.
