MADAN SARKAR
(A DEDICATED SOUL FOR THE WELFARE OF THE MANKIND)
FOUNDER & CHIEF CO-ORDINATOR

JHANJHA UNNAYAN SAMITY

FOUNDER'S DESK

India, our holy motherland, is a glorious Country. We have reached the top most goal of human civilization. We the Indians have crowned the throne of superiority of the World. But our head bowed down with a shameful curse of the burning problem of begging. No doubt begging is one of the greatest problems of India. This is obviously true that the lion's share of these baggers belong to somehow disable persons.

We will take pain to look into the Reports of World Health Organization that 10% of people of our motherland India are suffering from disabilities. In accordance with census report 2011, 3% people of India are handicapped. The percentage may 3 or 10 that does not vary; in our province West Bengal the percentage has exceeded 3%. The diagram of Murshidabad is very poor. And the diagram of Hariharpara in respect of demography is nothing to be mentioned. This can't be denied that major percent of Muslim Minority People (67.67%) are residing at this district Murshidabad. This district is the largest Muslim populated district of India. This district has bagged the top most position in India in respect of economical backwardness. Some critics say there are no comparisons of the district Murshidabad with the district Purulia which is the most backward district in respect of education. There is no Industry in this district. The heritage of this district cottage and small scale Industries have covered faces in the pages of History. The phenomenon of smuggling, stealing, raping, dacoits, women trafficking is the head news of this district. Erosion of land, flood has changed economical condition of this district. Love and affection, sympathy and kindness including all humane values are very hard at present. Amidst this pathetic scenario the problems of the disables may think easily.

In this situation I am to mention the Census report 2011 identified 20, 17,406 persons with Disabilities who constitute 2.21% of the total population of West Bengal. And in Murshidabad this number is 165505.

That the district Murshidabad where we live in is covering in about 5324 sq.km area. It has five Sub-divisions, 7 numbers of Municipalities, 26 numbers of Blocks, 255 numbers of Gram Panchayet and 2166 numbers of villages. In accordance with Census Report 2011 total population of Murshidabad is about 71, 02,430 (at present near about 78 lakhs) and among these 165505 persons are Disables. (The actual figure is much more than this in accordance to our practical experience).

This is our practical experience that so many Volunteer Associations in Murshidabad worked and have been working for the welfare of the disables. It is also a fact that the initiative taken in Murshidabad for the benefits of the disables are pitifully small than the need because of jealousy, fallout among themselves, non co-operative

mentality, unconsciousness regarding government schemes and above all social barrier. This is our motto to get together with all the organization having same aims and objects to create an endeavor.

We are also in this belief that the non co-operation of government officials will have to be converted to an active and conducive effort to wipe out all the hurdles of social developing of the handicapped.

This is to mention that the non co-operative attitude exists in government and non-government foundations for welfare of the disables. But there are little more noble hearted person in this selfish era to stand by for the welfare of the disables. A numbers of eminent personalities of Murshidabad and the rest district of West Bengal and also neighboring States have gathered. Amongst them there are educationist, advocates, journalist and noble hearted persons. You all honored us.

Louis Braille, the Blind Thinker of international repute once said, "If you don't lead me the path, then who is the actual blind?" So, I call you to come forward with a generous heart and feeling with co-operative hands to stand by the persons with special need in our state West Bengal.

Last of all I am to quote from Stephen Hawking, "My advice to other disabled people would be, concentrate on things your disability doesn't prevent you doing well, and don't regret the things it interferes with. Don't be disabled in spirit as well as physically."

THANKS TO ALL

We should not give up and we should not allow the problem to defeat us.

I have in the conviction we must complete the incomplete school at Jhanjha within one year. For your kind pleasure I am to mention that a well decorated pamphlet has been published. Our office has been

replaced at Gopalnagar which will surely be a pivot for the PwDs. Within this short time 260 nos. of destitute women are trained on sewing under our foundation.

You all know the inspiring data of JHANJHA UNNAYAN SAMITY, in NIRAMAYA Scheme 100 numbers of Beneficiaries have been enrolled and a new Scheme DISHA-CUM-VIKAAS (Day Care Schem) has sets her journey. 40 numbers of Special Child between 06-18 years age group are cared up at this centre. And the former Disha & Vikaas both Schemes have to close as per the Administrative direction of the National Trust. Amidst this joyous news I want to keep you mind that Joy and Owe are woven fine.

Last of all this is for your brain. Shri Madan Sarkar the Founder and Chief Co-ordinator of JHANJHA UNNAYAN SAMITY has been performing his duties since 14 years. He repeatedly again and again urges that his physical condition and age is beyond of work. Besides he is associated with various social and cultural organizations. So he put and urges to perform the specific duties of all the staffs. We are grateful to him. We have to take an oath that we have to railing the work culture in future as he leads and dream.
