BACKGROUND OF NORTH BENGAL HANDICAPPED REHABILITATION SOCIETY

North Bengal Handicapped Rehabilitation Society has reached an important milestone by completing 35 years of service. Founded in 1988, the organization has been dedicated to empowering individuals with disabilities of this region and supporting them in leading independent and fulfilling lives.

Over the past three and a half decades, North Bengal Handicapped Rehabilitation Society has worked tirelessly to provide a range of services and programs to meet the diverse needs of people with disabilities. Some of the key areas of focus for the organization may include:

Educational Support: Recognizing the importance of education, we have been involved in providing free educational support to children with Hearing & Speech Disabilities, Intellectual Developmental Disabilities and Cerebral Palsy through our Academic Unit named "UTTARAN". We have ensured quality education to our Children with Special Needs (CWSNs) by appointing qualified Special Educators and Therapists. Department of Disabilities Affairs, Ministry of Social Justice & Empowerment, Govt. Of India, has been kind enough to continuously sanctioning financial aids under Deendayal Disabled Rehabilitation Scheme since 1998-99.

SPORTS & GAME: We organized State and National Sports Meet of the Hearing Impaired in 1993, 1995, 1999, and 2005. We have organized the North Bengal Zonal Sports Meet of the disabled till 2014 and we have been organizing Annual Sports among the students of UTTARAN since 2015. Students of this institute represented West Bengal State in several National Games of the Deaf. They represented India in the Asian Games of the Deaf in Malaysia, Taiwan, and World Games of the Deaf in Rome, Melbourne.

EDUCATIONAL TOUR: Every year students of UTTARAN are enjoying free educational tours and the said educational tours help them to learn about the natural life of animals in the forest, they learn how to stay in any unknown place in a camp at least for five days either in plane or in the hilly region. The self-confidence of the disabled is increasing from those programs As no guardians are to accompany their children.

VOCATIONAL TRAINING UNIT: Disabled students are availing vocational training courses since 15 years at the academic building of the organization free of cost, so that, after completion of school days they may earn their daily needs by rendering vocational services to the public.

Advocacy and Awareness: The society may have actively advocated for the rights and inclusion of people with disabilities in society. This could involve raising awareness about disability issues, advocating for policy changes, and working towards creating an inclusive environment for all.

The 35 years reflects the dedication, commitment, and impact of the North Bengal Handicapped Rehabilitation Society in improving the lives of people with disabilities. It is a testament to our ongoing efforts and the positive changes they we have brought about in the region.
